

Guernsey Memorial Library Policies		Sleeping Patrons
Date Issued: March 9 2017	Last Revised: 4/8/2024	Page: 1 of 1
<p>While the library recognizes that the library can be a relaxing environment, sleeping library patrons can cause problems. Sleepers take up space that could be used for more legitimate library purposes like studying, browsing, or reading. It is also difficult to distinguish between a sleeping person and a person who is having a medical crisis. For these reasons, and others, we will awaken sleeping patrons and ask them to leave the premises.</p>
